

Confidentiality Statement

We will not reveal information about any pupil in our care, or any information disclosed by parents/carers unless we have a serious concern relating to the child's safety and wellbeing. If we consider the child to be at risk, we may need to share information with external agencies. We have a legal obligation to disclose this kind of information, and our practice is consistent with other organisations and services.

If you have any questions about confidentiality, please contact the school. We will be happy to discuss this with you.
